

## HOMELAND-DEFENSE OPERATIONAL PLANNING SYSTEM

---

Thank you for your interest in the Homeland-Defense Operational Planning System (HOPS).

In order to comply with security requirements of both the current sponsors of HOPS and the host organization, Lawrence Livermore National Laboratory, we need you to fill out the following page in its entirety.

**Please complete the form below and fax it to (925) 422-3821.**

After it is received, an account and password will be created for you. Typically this takes 5 working days to fulfill.

Once the account is created, we can send information to you in the following ways:

1. SIPRNET e-mail
2. JWICS e-mail
3. If you do not have either of the above, we will send the instructions and information via US Postal service.

\*Our security plans do not allow us to send this type of information over an unclassified email network.

Again thank you for your interest in HOPS and we look forward to working with you in the future.
